ONLY A SILLY STORY

Liverpool Potteries Are Not
Moving to Detroit.

THERE IS NOTHING IN THE TALE

Who Started It Is a Mystery, and It Can
Not Be Located Here—As the Story Goes,
Four Plants Will Pull Up Stakes and
Get Out Next Spring.

The following is credited as coming
from Detroit and is reprinted by a
trade paper:

"An East Liverpool, Ohio, crockery
and china firm, negotiating for
three acres on the Detroit river front
between Ecorse and Wyandotte. The
firm own mines of feldspar and mica
in Canada, and transport these materials
to East Liverpool. It has been
found that the land in Ecorse contains
a fine quality of clay. These three
materials are the main substances in
the manufacture of crockery ware
and china. The firm proposes to
remove its headquarters to the Detroit
river, and there receive its Canadian
supplies. If the negotiations go
through, the firm will erect a plant
consisting of a main brick building
two and one-half stories in height,
and employ 53 hands. It is probable
that three other china and crockery
manufacturing firms in East Liverpool
will follow the example of the firm
and locate on the Detroit river front."

There is probably nothing whatever
in the story. Other stories of similar
import have been circulated and came
to naught. It is a known fact that
manufacturing potters have no desire
to move from an established potters
community. Inquiry was made in the
city today, but no one seemed to
know of any plants that were contemplating
removal. One manufacturer
laughed at the idea, and said he
knew of no concern so foolish as to
move from this place to the best
ground that could be found on the
Detroit river. It would be taking
the pottery farther from its
trade with really nothing to gain
except a pretty spot on which
to build. As a rule the local potters
have no desire to move out, and are
very well satisfied where they are. It
will be remembered that a story
which said the Dresden would move to
Buffalo was circulated in the same way
a few years ago, and was traced to a
real estate man who had some ground
to sell. As one gentleman put it this
afternoon, "you can mark that down
as a myth."

A RING EVIL.

Can It Be Possible That Such a Ring
Exists Here?

EDITOR NEWS REVIEW.—Is it possible
that officials of the city of East
Liverpool are so lost to all true principles
of honor and manhood as to wink
at lawlessness and vice? Can it be
that these officials, elected by the
people for the purpose of enforcing the
law, will enter into a combination,
the purpose of which is to deliberately
and premeditatedly defeat the ends of
justice and assist a lawbreaker to escape
the penalty of his misdeeds and bad
conduct? I was an unknown and
unwilling listener to the conversation
of three well-known and prominent
city officials yesterday, when one of
the three made the statement, acquiesced
in by the other two, that no matter
how direct or condemnatory the
evidence produced against Police-
man John Whan, the present council
would not convict him, and dare not
do so, as certain members were
pledged to stand by him, through
thick and thin. I cannot believe this
statement, as it would brand such
councilmen as infamous and despicable
beyond compare. Further than
the above statement, however, one of
the officials designated asserted that
a whip was held over the head of certain
councilmen, by men who were
instrumental in placing them in
office, and that said councilmen were
compelled to vote as they were instructed,
under penalty of exposure.
Can such things be? For the sake of
honor and decency, for the sake of
common manhood, I sincerely hope
that the statement is false. I have
heard it stated, by clear-headed, conservative
and fair-minded men, that
City Solicitor Clark made no effort to
convict John Whan at the late trial,
and that he allowed Attorney Jason
Brookes to lay down as law certain
points prejudicial, and strongly
against the prosecution, when such
points were merely in Jason's mind,
and were not backed up by any law
in this or any other commonwealth
or municipality of the nation, and that
the city solicitor was aware of the
fact, and that he was either acting
against the prosecution he was conducting,
or else was so badly rattled
as to be incapable of combatting the
statements and blarney of the keen-

witted opposing counsel. Which horn
of the dilemma will be accepted by the
city solicitor? And right here, in the
interest of fair play, let me give a
pointer to Mayor Gilbert respecting
the rights of a witness, under common
law, which the mayor, when presiding
over a case, is in duty bound to enforce.
No attorney has the right to
maltreat, abuse and vilify a witness,
as Jason Brookes did in the late Whan
trial, and had I been the witness so
abused, I would have appealed to the
court for protection, and had the
court refused me the protection
which the law grants every witness in
such a case, then the mayor and the
attorney would have been the law-
breakers and I would have protected
myself.

One more growl and I have finished.
Is it possible, as has been hinted,
that prominent politicians, and men who
desire very earnestly to keep the matter
a profound secret, are heavily interested
in the liquor traffic, and care
not whether the stuff is sold legally or
illegally—only aiming to see that it is
disposed of, in order that their strong
boxes and bank accounts may show up
well in the matter of gain?

GEORGE THE GROWLER.

CLAYTON WINNING FAME.

An East Liverpool Checker Player in
England.

Edward Clayton, a young potter of
this city who went to England a few
months ago, is winning fame as a
checker player. He was one of the
best in the city, and had a good record
here. When he crossed to the other
side his love for the game soon be-
came known, and Clayton lost no time
in showing the Briton that what he
did not know of checkers was not
worth a place in the book. He won
many small matches, and was one of
the team selected by the Handley
club to face Liverpool. At a critical
point in the match he was pitted
against the Liverpool champion, and
easily beat him out. He played that
day with some of the best checker men
in England.

NO MORE CIGARETTES

If the Bill Introduced Ever Becomes a
Law.

Tobacco dealers throughout the
state are talking about the proposed
cigarette license, and the opinion is
general that the trade will be killed
in Ohio if the law is passed
and enforced. A well known
Liverpool dealer said today that he
did not make enough profit in a year
from the sale of cigarettes to warrant
him taking out a license if the bill
passed, and he would not do it. He
would simply quit the business of
cigarettes, and leave the sale of them
to a few stores in the big cities. As it
is, the dealers do not make a great
deal from the sale of the deadly little
things.

THEIR HOPES ARE DEAD.

Wucherer Addition People Thought They
Had a Good Thing.

Residents of Wucherer addition
have long been complaining of the
water provided by the city, and when
one discovered yesterday what he im-
agined was a fine spring coming from
the hill he notified his neighbors, and
they were delighted. Tools were procured
and a party set out to work to make
a neat receptacle for the water, where
all could get as much as they needed.
They worked with a will, but were
doomed after a time to disappointment,
for they found the water coming
from a leak in the main nearby, and
those who had pronounced it so good,
wondered how they had been mis-
taken.

KILLED THE RAT.

But It Gave the Office Force at Patterson's
a Chase.

In some way a rat got into the office
at Patterson's foundry this morning,
and there was fun for all concerned
except the poor rat. The rodent se-
creted itself behind a desk, and no
one made an attempt to move the
furniture until a big cat, well versed
in the art of killing rats, had been
brought in. Then the sport began in
earnest; but as the rat had all the
chances against it, the feline was not
long in ending its earthly career.
There are large rats in the lower part
of town, their color being gray.

AFTER A NEW ROUTE.

Sprucevale Only Gets Its Letters Three
Times a Week.

The people who get their mail de-
livered at Sprucevale, a little hamlet
not far from Clarkson, are after a
daily service. At one time they had
it, but when an office was established
at Williamsport the route was changed
so that they only get mail every other
day. An effort has been set on foot to
secure mail at least once a day, and
it is probable that it will be success-
ful since all people of that vicinity
favor the move.

ANDREWS SAID GUILTY

The Street Railway Superin-
tendent In Court.

A LIGHT FINE WAS INFLICTED

It Cost the Company Almost \$300 to Run
Cars Without Vestibules, Five Charges
Being Used and the Other Notified.
Other Court News.

Special to the NEWS REVIEW.

LISBON, Jan. 10.—The case against
R. L. Andrews, superintendent of the
East Liverpool and Wellsville Street
Railway company, came to an end in
the court of Judge Young last
night.

There were six charges of running
cars without vestibules, and it did not
require a long time to settle the mat-
ter. A plea of guilty was entered in
five instances, and the other was
nolled. Judge Young imposed a fine
of \$25 and costs in each charge, the
whole bill amounting to \$190. It was
paid and the superintendent walked
out of court without a charge against
him. The information was made a
few weeks ago by Deputy Walter
Supplee at the instance of the motor-
men's union. They had some ar-
rangement with the company when
the strike was settled, and because
the vestibules were not put on the
cars the action was brought under the
state law.

Judge Taylor adjourned court today,
and there will be no session until
Tuesday, as the farmers will meet in
the room early in the week. Before
going home he gave judgment to the
Chamberlain company, of East Pale-
stine, against Ezra Hosmaster for \$889,
and \$50 to Mrs. Kate Wood-
ward, of Salineville, to prosecute
her divorce suit. John McGavern got
judgment for \$1,202 against Bridget
Collins. Judgment was given Augustus
Haller for \$5,415.07, the amount of a
claim he holds against the Wells-
ville Soap company. If it is not paid
within five days the plant will be sold
to satisfy the judgment. The claim
of Mary Aldridge to a farm of 120
acres in Salem township was estab-
lished by a suit against Elizabeth
Mathers. There has been a coal lease
on the land for 35 years. Ella Mc-
Conn, of Wellsville, was given judg-
ment for \$2,039.50 against Mrs. Usle-
ton, of the same place.

STEALING COAL.

Small Boys Have Been Annoying the Se-
bring Company.

When the coal houses of the Sebring
company are filled with coal, it at
times becomes necessary to dump a
few loads into the alley until such time
as it can be moved, and then the
small boy of the vicinity is in his glory.
They swarm about the coal pile, and
carry away as much as possible, caus-
ing the company annoyance and loss.
This morning a member of the con-
cern detected the crowd at their work
and after watching them a few min-
utes informed them that the practice
must cease. The boys were frightened
but all promised if they were not ar-
rested never to steal another pound of
coal.

FINE BATH TUBS.

They Are Now Being Made at the Boyce
Enamelling Works.

A fine bath tub in the window of
the store of G. Bendheim attracted no
end of attention today. It is from
the new enamelling works of A. J.
Boyce and is a beauty. The plant is
located on Ravine street, has a capac-
ity of 15 per day which will soon be
increased to 25, and gives employment
to 20 men. The iron work is made at
the foundry on Walnut street, and the
enamelling at the new plant. Edward
Dithridge, an experienced man from
Beaver county, has charge of the
works. The tubs are as fine as any on
the market, and a large sale is pre-
dicted.

SOME CHANGES.

New Business Houses Will Come to Town
Soon.

A new shoe house has moved to the
city, and will soon have its doors open
for business, and a man and woman
were here from Bellaire looking up
a location for a restaurant and con-
fectionery yesterday. A Sixth street
concern will be long gone into the bakery
business and new groceries are noted
almost every week. There will be
several movings in the spring, but the
more prominent business houses will
retain the quarters they now occupy.
It was rumored a week ago that a
Wellsville firm would locate here.

LOST MONEY.

The Saloon of Harry Hughes Was Closed
on a Mortgage.

The saloon of Harry Hughes was
closed on a chattel mortgage late yester-
day afternoon by Constable Lyon,

and will not be reopened. Mrs.
Hughes stated to a reporter this morn-
ing that the business had been un-
profitable, and \$500 of her own money
had been sunk in the enterprise since
it was started. She will remain here
for a few weeks endeavoring to collect
some of the accounts that are due, and
will then join her husband who has
left the state. He is at present look-
ing for another location, and when he
finds one he will go into business
again. Mrs. Hughes refused to
disclose the whereabouts
of her husband, but said it would be
made known in due time. Hughes
has lost money since he entered the
business, and left town several days
ago. At which time it was announced
he would return.

A NEW TIME TABLE.

But It Will Not Change This Divi-
sion.

Notice has been received by Agent
Adam Hill that the Pennsylvania
company will inaugurate a new time
table on Sunday, but this division is
not affected. Some trains on the Pan-
handle and on other lines are changed
somewhat, but every train will arrive
and depart from the city as at present.
The only change of importance on the
Cleveland and Pittsburgh is that which
consigns the Alliance-Cleveland accom-
modation to the railroad grave. An
electric line recently put in opera-
tion near Cleveland took so much patron-
age from the train that it became a
losing institution.

NEW CARS AND NEW RULES.

The Street Railway Company Have Both
Today.

Several new street cars were put on
the line today, and are such a change
for the better that people stop and
stare at them. They are vestibuled
at each end, and look very well. With
the cars go new rules, and the first
motorman to take one out had his
hands full yesterday afternoon.
Young men insisted on riding on the
platform and smoking, while others
continued to spit on the floor, as they
would if the cars were old. These
new rules were not popular, but motormen
say the orders are to enforce
them to the letter.

KELLY IS FOUND.

The Missing Sign Painter Wants to Make
It Up.

G. W. Meredith is in receipt of a
letter from the father of James Kelly,
the sign painter who disappeared a
few weeks ago, bearing the informa-
tion that he had been found, but
neglecting to state the city where he
is located. When he dropped out of
sight he had in his possession some
property owned by Mr. Meredith, and
the Chicago police were notified. It
is now thought the young man has
come to his senses, and his friends are
endeavoring to prevent proceedings
against him by offering to pay for the
missing property.

NOT WELL ATTENDED.

The Dog Fanciers Did Not Have a Big
Crowd.

The open meeting of the Kennel
club was not well attended at city hall
last evening, but those who were
present discussed in an informal way
the question in which they are inter-
ested. The entry blanks for the
bench show were distributed, and it
was agreed that another meeting
should be held next month. At present
the officers are delighted with the
prospect for a good show, owing to the
interest shown in the city, and the
promise of good dogs from other
towns.

GOT HIS WATCH.

James B. Scott Was Heard From the
Wheeling Police.

James B. Scott, the Second street
man who was robbed in a Wheeling
hotel one night last week while he
slept, has heard from the authorities.
They sent him his watch, but that is
all. The money was not recovered,
nor was there any explanation as to
why the timepiece was found and the
other not located. Scott had every-
cent in his possession taken, and can-
not understand, if the watch was
found, why he has not heard of some
effort to locate the thieves.

The First Initiation.

Pilgrim commandary, Knights
Templars, will this evening begin the
initiation of the first two candidates
in the history of the organization.
The commandary is now thoroughly
organized, and the team has been
practicing until it is in good order.
The event is an important one for Ma-
sons, and all who are entitled will
likely be present tonight.

Pneumonia Caused Death.

The 18-months-old daughter of T.
M. McDevitt, of Fourth street, died
last night of pneumonia. The re-
mains will be interred in Spring
Grove cemetery on Sunday afternoon.

MASSEY WAS MULCTED

Then the Mayor Gave Him a
Lecture on Cruelty.

IT COST HIM JUST TEN DOLLARS

To Get Out of the Scrape of Wednesday
Evening—He Was Penitent and Prom-
ised to Behave Himself in the Future.
Another Wife Beating Case.

Bill Massey, who was arrested
Wednesday night for beating his wife
and son with a poker, was arraigned
before Mayor Gilbert last evening
and pleaded guilty.

The mayor heard the man tell his
side of the story and ask for leniency
on the ground that he would never do
it again. Then he gave Massey a fine
of \$10 and costs, and read him a lec-
ture on wife beating in particular and
cruelty in general. Massey was very
penitent, and promised not to do it
again and to behave himself. He left
the office with the parting
injunction of the mayor that the
saliest kind of a dose
was awaiting him if he forgot his
promise and departed again from the
path of rectitude. The neighbors who
know the family thought the mayor
should have made the sentence much
nearer the limit of the law.

Another case of wife beating was
heard of last night, but if the story be
true the woman was in the main to
blame. She came home drunk, slap-
ped one of the children, and was taken
in hand by the husband. The row
which followed resulted in the woman
being severely whipped and quickly
sobered. The people live in Brad-
shaw addition, but the name could
not be learned.

An Up to Date Newspaper.

The East Liverpool News REVIEW
has moved into new and enlarged
quarters and added a new press to its
equipment. The News REVIEW is a
bright, up to date paper and a credit
to the little city whose cause it so
ably champions. Judging from its
steady improvement, it is appreciated
by the people of that city.—Canton
Repository.

The East Liverpool News REVIEW
has moved into its new quarters in
the bank building on Washington
street, and prides itself on having a
complete outfit for job and news-
paper work as is to be found in the
county. We are pleased to note the
growth and enterprise of the REVIEW.
It is a clean, newsy, reliable paper,
and we wish it success.—Wellsville
Union.

They are Not Married.

Small boys with tin cans and old
dish pans have been annoying resi-
dents in the neighborhood of Seventh
and Jackson streets for several nights
in the belief that they were welcom-
ing home a newly married couple.
They were mistaken. A reporter in
search of particulars of the wedding
learned at the house this afternoon
that the principals, two old people,
had called on a friend in Beaver Falls
this week, and when they came home
the report of their marriage was
started.

Still Silent.

The silence regarding the fate of
the Canton and East Liverpool rail-
way is still maintained, and there is
no definite information. The Canton
Repository, in speaking of the matter,
says:

"The last year's officers, given out at
the time of the organization, were
Harry Freese, chief engineer, and
Charles R. Miller, chief counsel. No
additional officers are now given out.
Only a few days' more work will be re-
quired to complete the preliminary
survey of the road."

The Proper Medium.

Mr. Frank Sherwood, of Fourth
street, advertised in the News Re-
view the other evening for rooms,
and today said: "Take out my adver-
tisement for it brought results
quickly. The News REVIEW is cer-
tainly a great medium for making
your wants known. Long life and
prosperity to the News REVIEW."

Annoyed the Passengers.

Motorman Friend had an experience
with a man and two women coming
from Wellsville last night. The man
insisted on making more noise than
was allowable, riding on the front
platform, and in other ways disbe-
having. He saved himself being
thrown from the car by obeying the
order of the motorman.

Will Run Again.

Trustee Albright has decided to
again try for the position he holds,
and his friends believe he will win by
a unanimous vote, since no other
names have been heard in connection
with the office.

But It Gave the Office Force at Patterson's a Chase.

In some way a rat got into the office at Patterson's foundry this morning, and there was fun for all concerned except the poor rat. The rodent secreted itself behind a desk, and no one made an attempt to move the furniture until a big cat, well versed in the art of killing rats, had been brought in. Then the sport began in earnest; but as the rat had all the chances against it, the feline was not long in ending its earthly career. There are large rats in the lower part of town, their color being gray.

AFTER A NEW ROUTE.

Sprucevale Only Gets Its Letters Three Times a Week.

The people who get their mail delivered at Sprucevale, a little hamlet not far from Clarkson, are after a daily service. At one time they had it, but when an office was established at Williamsport the route was changed so that they only get mail every other day. An effort has been set on foot to secure mail at least once a day, and it is probable that it will be successful since all people of that vicinity favor the move.

ANDREWS SAID GUILTY

The Street Railway Superintendent In Court.

A LIGHT FINE WAS INFLICTED

It Cost the Company Almost \$200 to Run Cars Without Vestibules, Five Charges Being Used and the Other Nollied. Other Court News.

Special to the NEWS REVIEW.

LISBON, Jan. 10.—The case against R. L. Andrews, superintendent of the East Liverpool and Wellsville Street Railway company, came to an end in the court of Judge Young last night.

There were six charges of running cars without vestibules, and it did not require a long time to settle the matter. A plea of guilty was entered in five instances, and the other was nollied. Judge Young imposed a fine of \$25 and costs in each charge, the whole bill amounting to \$190. It was paid and the superintendent walked out of court without a charge against him. The information was made a few weeks ago by Deputy Walter Supplee at the instance of the motormen's union. They had some arrangement with the company when the strike was settled, and because the vestibules were not put on the cars the action was brought under the state law.

Judge Taylor adjourned court today, and there will be no session until Tuesday, as the farmers will meet in the room early in the week. Before going home he gave judgment to the Chamberlain company, of East Palestine, against Ezra Hosmaster for \$889, and \$50 to Mrs. Kate Woodward, of Salineville, to prosecute her divorce suit. John McGavern got judgment for \$1,202 against Bridget Collins. Judgment was given Augustus Haller for \$5,415.07, the amount of a claim he holds against the Wellsville Soap company. If it is not paid within five days the plant will be sold to satisfy the judgment. The claim of Mary Aldridge to a farm of 120 acres in Salem township was established by a suit against Elizabeth Mathers. There has been a coal lease on the land for 35 years. Ella McConn, of Wellsville, was given judgment for \$2,039.50 against Mrs. Uleton, of the same place.

STEALING COAL.

Small Boys Have Been Annoying the Sebring Company.

When the coal houses of the Sebring company are filled with coal, it at times becomes necessary to dump a few loads into the alley until such time as it can be moved, and then the small boy of the vicinity is in his glory. They swarm about the coal pile, and carry away as much as possible, causing the company annoyance and loss. This morning a member of the concern detected the crowd at their work and after watching them a few minutes informed them that the practice must cease. The boys were frightened but all promised if they were not arrested never to steal another pound of coal.

FINE BATH TUBS.

They Are Now Being Made at the Boyce Enamelling Works.

A fine bath tub in the window of the store of G. Bendheim attracted no end of attention today. It is from the new enamelling works of A. J. Boyce and is a beauty. The plant is located on Ravine street, has a capacity of 15 per day which will soon be increased to 25, and gives employment to 20 men. The iron work is made at the foundry on Walnut street, and the enamelling at the new plant. Edward Dithridge, an experienced man from Beaver county, has charge of the works. The tubs are as fine as any on the market, and a large sale is predicted.

SOME CHANGES.

New Business Houses Will Come to Town Soon.

A new shoe house has moved to the city, and will soon have its doors open for business, and a man and woman were here from Bellaire looking up a location for a restaurant and confectionery yesterday. A Sixth street concern will be long gone into the bakery business and new groceries are noted almost every week. There will be several movings in the spring, but the more prominent business houses will retain the quarters they now occupy. It was rumored a week ago that a Wellsville firm would locate here.

LOST MONEY.

The Saloon of Harry Hughes Was Closed on a Mortgage.

The saloon of Harry Hughes was closed on a chattel mortgage late yesterday afternoon by Constable Lyon,

and will not be reopened. Mrs. Hughes stated to a reporter this afternoon that the business had been unprofitable, and \$500 of her own money had been sunk in the enterprise since it was started. She will remain here for a few weeks endeavoring to collect some of the accounts that are due, and will then join her husband who has left the state. He is at present looking for another location, and when he finds one he will go into business again. Mrs. Hughes refused to disclose the whereabouts of her husband, but said it would be made known in due time. Hughes has lost money since he entered the business, and left town several days ago. At which time it was announced he would return.

A NEW TIME TABLE.

But It Will Not Change This Division.

Notice has been received by Agent Adam Hill that the Pennsylvania company will inaugurate a new time table on Sunday, but this division is not affected. Some trains on the Pan-handle and on other lines are changed somewhat, but every train will arrive and depart from the city as at present. The only change of importance on the Cleveland and Pittsburg is that which consigns the Alliance-Cleveland accommodation to the railroad grave. An electric line recently put in operation near Cleveland took so much patronage from the train that it became a losing institution.

NEW CARS AND NEW RULES.

The Street Railway Company Have Both Today.

Several new street cars were put on the line today, and are such a change for the better that people stop and stare at them. They are vestibuled at each end, and look very well. With the cars go new rules, and the first motorman to take one out had his hands full yesterday afternoon. Young men insisted on riding on the platform and smoking, while others continued to spit on the floor, as they would if the cars were old. These new rules were not popular, but motormen say the orders are to enforce them to the letter.

KELLY IS FOUND.

The Missing Sign Painter Wants to Make It Up.

G. W. Meredith is in receipt of a letter from the father of James Kelly, the sign painter who disappeared a few weeks ago, bearing the information that he had been found, but neglecting to state the city where he is located. When he dropped out of sight he had in his possession some property owned by Mr. Meredith, and the Chicago police were notified. It is now thought the young man has come to his senses, and his friends are endeavoring to prevent proceedings against him by offering to pay for the missing property.

NOT WELL ATTENDED.

The Dog Fanciers Did Not Have a Big Crowd.

The open meeting of the Kennel club was not well attended at city hall last evening, but those who were present discussed in an informal way the question in which they are interested. The entry blanks for the bench show were distributed, and it was agreed that another meeting should be held next month. At present the officers are delighted with the prospect for a good show, owing to the interest shown in the city, and the promise of good dogs from other towns.

GOT HIS WATCH.

James B. Scott Has Heard From the Wheeling Police.

James B. Scott, the second street man who was robbed in a Wheeling hotel one night last week while he slept, has heard from the authorities. They sent him his watch, but that is all. The money was not recovered, nor was there any explanation as to why the timepiece was found and the other not located. Scott had every cent in his possession taken, and cannot understand, if the watch was found, why he has not heard of some effort to locate the thieves.

The First Initiation.

Pilgrim commandary, Knights Templars, will this evening begin the initiation of the first two candidates in the history of the organization. The commandary is now thoroughly organized, and the team has been practicing until it is in good order. The event is an important one for Masons, and all who are entitled will likely be present tonight.

Pneumonia Caused Death.

The 18-months-old daughter of T. M. McDevitt, of Fourth street, died last night of pneumonia. The remains will be interred in Spring Grove cemetery on Sunday afternoon.

MASSEY WAS MULCTED

Then the Mayor Gave Him a Lecture on Cruelty.

IT COST HIM JUST TEN DOLLARS

To Get Out of the Scrape of Wednesday Evening—He Was Penitent and Promised to Behave Himself in the Future. Another Wife Beating Case.

Bill Massey, who was arrested Wednesday night for beating his wife and son with a poker, was arraigned before Mayor Gilbert last evening and plead guilty.

The mayor heard the man tell his side of the story and ask for leniency on the ground that he would never do it again. Then he gave Massey a fine of \$10 and costs, and read him a lecture on wife beating in particular and cruelty in general. Massey was very penitent, and promised not to do it again and to behave himself. He left the office with the parting injunction of the mayor that the saltiest kind of a dose was awaiting him if he forgot his promise and departed again from the path of rectitude. The neighbors who know the family thought the mayor should have made the sentence much nearer the limit of the law.

Another case of wife beating was heard of last night, but if the story be true the woman was in the main to blame. She came home drunk, slapped one of the children, and was taken in hand by the husband. The row which followed resulted in the woman being severely whipped and quickly sobered. The people live in Bradshaw addition, but the name could not be learned.

An Up to Date Newspaper.

The East Liverpool NEWS REVIEW has moved into new and enlarged quarters and added a new press to its equipment. The NEWS REVIEW is a bright, up to date paper and a credit to the little city whose cause it so ably champions. Judging from its steady improvement, it is appreciated by the people of that city.—Canton Repository.

The East Liverpool NEWS REVIEW has moved into its new quarters in the bank building on Washington street, and prides itself on having as complete an outfit for job and newspaper work as is to be found in the county. We are pleased to note the growth and enterprise of the REVIEW. It is a clean, newsy, reliable paper, and we wish it success.—Wellsville Union.

They are Not Married.

Small boys with tin cans and old dish pans have been annoying residents in the neighborhood of Seventh and Jackson streets for several nights in the belief that they were welcoming home a newly married couple. They were mistaken. A reporter in search of particulars of the wedding learned at the house this afternoon that the principals, two old people, had called on a friend in Beaver Falls this week, and when they came home the report of their marriage was started.

Still Silent.

The silence regarding the fate of the Canton and East Liverpool railway is still maintained, and there is no definite information. The Canton Repository, in speaking of the matter, says:

"The last year's officers, given out at the time of the organization, were Harry Freese, chief engineer, and Charles R. Miller, chief counsel. No additional officers are now given out. Only a few days' more work will be required to complete the preliminary survey of the road."

The Proper Medium.

Mr. Frank Sherwood, of Fourth street, advertised in the NEWS REVIEW the other evening for rooms, and today said: "Take out my advertisement for the first time brought results quickly. The NEWS REVIEW is certainly a great medium for making your wants known. Long life and prosperity to the NEWS REVIEW."

Annoyed the Passengers.

Motorman Friend had an experience with a man and two women coming from Wellsville last night. The man insisted on making more noise than was allowable, riding on the front platform, and in other ways disbehaving. He saved himself being thrown from the car by obeying the order of the motorman.

EAST LIVERPOOL, O., FRIDAY, JAN. 10.

For President,
WILLIAM MCKINLEY,
Of Ohio.

THE war news from Spain seems almost as reliable as election news from Saltineville.

THE rules adopted by the county committee for the Republican primaries are the most sensible lot that have ever been used in this county.

AFTER the new tariff law is passed Mr. Carlisle can go to bed with the assurance that he will not be called to pay a bill before business hours.

THERE is said to be some silly twaddle at Columbus of a senatorial candidate from the Republican side other than Mr. Foraker, but the correspondent who sent out the story was probably crazy or drunk.

THE legislature has started off at a gait which prompts the belief that the members are anxious to get done and go home. May they not forget before the session ends that too much law is as dangerous as too little law.

THE claim is made in the Transvaal that a lack of the knowledge of politics is responsible for the troubles. They should send to this county for material, for the knowledge of good politics has almost become a necessity in Columbiana.

MAKING HEADWAY.

It is a noticeable fact that the McKinley boom, if boom it can be called, is making headway in the four corners of the country and right down through the middle of the land. Mr. Mark Hanna, the Cleveland gentleman who has the business end of the governor's fight in hand, is working day and night, traveling far and near, and doing yeoman service for the gentleman, and there are others, as the small boy hath it. Mr. Morton will not have New York to himself if the people instead of Mr. Platt have anything to say about it. There are McKinley men right in the heart of the metropolis, and they are not the kind of men to desert their friend in the hour of his greatest need. Mr. Reed, of course, expects to make a strong showing in New England and the south, but the friends of our governor are not discouraged by the boastful utterances of the great parliamentarian's managers. They have not expressed a wish to go right into his ballawick and fight for prestige, but they are meeting him everywhere outside of that, and the McKinley men have reason to believe that they have the best end of the game to the present time. Here's hoping and believing it will continue so to the end.

IRON ORE MEN COMBINE

Three Owners on the Menominee Pool Interests.

BEST PRODUCERS IN THE WORLD.

Representatives of Lake Superior Bessemer Ore Interests Meet in Cleveland to Limit the Annual Output—Hope to Swing Mesaba Men in Line.

CLEVELAND, Jan. 10.—A combination has been effected by the owners of the Chapin, Hamilton and Ludington iron mines of the Menominee range, in the Lake Superior region. The mines adjoin, and when connected and worked to their full capacity will probably constitute one of the best producing mines in the world.

Representatives of all the companies owning Bessemer iron ore mines in the Lake Superior region are in conference here for the purpose of reaching an agreement, if possible, limiting the annual output of each mine. Last year a similar agreement was made by the companies operating all the mines except those in the Mesaba range. The Mesaba men are at the present meeting and the others hope to bring them into line.

TWO OF THE CREW KILLED.

No Passengers on the Motor That Went Through a Bridge Near Cleveland.

CLEVELAND, Jan. 10.—Later reports show that there were no passengers on the Akron, Bedford and Cleveland motor that went through the bridge near Bedford, and that only the crew, consisting of three men, went down in the wreck.

The bridge that collapsed was a frail structure and was built by the Akron, Bedford and Cleveland company. It was built on an incline, one end being considerably higher than the other. The span that crossed the creek was about 175 feet long, and the train was just about in the center of this span when the structure opened up as though it were made of cardboard and allowed the train to plunge to the ravine below. The dead are: William Young of Cuyahoga Falls, O., body terribly mangled, and Lyman Haymaker, Canton, O., has a wife and family in the west. Charles Gieb had his legs and arm broken and was injured internally. Special cars were run from this city and from Akron carrying physicians and all that could be done for the injured was done by the railroad company.

London Chronicle Commissioner Feels Sure of Arbitration.

SCHOMBURG LINE ABANDONED.

He Says English Attitude Is Changed, Now That the American Position Is Understood—Sensors, In Interviews, Favor Arbitration.

LONDON, Jan. 10.—Mr. Henry Norman, the special commissioner of the London Daily Chronicle in Washington, cables his paper as follows: "The sentiment for arbitration is a ball, which, once set rolling among a civilized people, cannot be stopped. I take it for granted that in some manner arbitration in the Venezuelan dispute is now certain."

Mr. Norman devotes the major portion of the remainder of his dispatch to authorized interviews with the members of the senate foreign relations committee, in which all favor arbitration, as does Chairman Hitt of the house committee. Mr. Norman then continues:

"The above represents the weightiest and most important body of opinion that could possibly be secured in the United States. And these are the men to whose consideration any question between England and America would be first submitted, and by whose decision the senate and the house would probably be guided. It is impossible to believe that British sentiment will not be moved to respond to such remarkable unanimity and such enlightened utterances. If not, then the world will see that America is ahead of England in the most striking characteristic of a civilized people."

"It is cable that the British Guiana police have occupied the extreme limits of the territory claimed in Venezuela. The American government has brought heavy pressure to bear to prevent the Venezuelan government from committing any overt act, and thus precipitating a hostile situation. Therefore, it is imperatively necessary that the British government instantly deny and repudiate such a monstrous and fatal act as the armed occupation of territory while the question of arbitration is pending."

"My work here is done. I propose to leave Washington immediately. The Schomburg line is now abandoned. The English public, understanding the American attitude, has changed its own attitude, and nothing blocks the way to a prompt settlement, not only of the Venezuelan, but of all other matters, and they are numerous, now pending and creating international discord, and thereby placing our relations upon an amicable footing for the future. My last words shall be, and they must surely express British no less than American sentiment, that the nation desiring arbitration is in a civilized attitude and that the nation refusing it is in an uncivilized attitude."

A Denial From England.

"LONDON, Jan. 10.—The colonial office publishes a denial of the report which reached here from Caracas, Venezuela, via New York, that British troops, with cannon, from Demerara had arrived at Cuyuni, a station at the extreme limit of the British claims in the disputed territory and the scene of the Uruan incident."

Guira Melena is on a line almost directly south of Havana.

Gomez is, therefore, well out of the region in the province of Pinar del Rio, in which it was said he was being enmeshed as in a trap.

EAST LIVERPOOL, O., FRIDAY, JAN. 10.

For President, WILLIAM MCKINLEY, Of Ohio.

The war news from Spain seems almost as reliable as election news from Salineville.

The rules adopted by the county committee for the Republican primaries are the most sensible lot that have ever been used in this county.

AFTER the new tariff law is passed Mr. Carlisle can go to bed with the assurance that he will not be called to pay a bill before business hours.

THERE is said to be some silly twaddle at Columbus of a senatorial candidate from the Republican side other than Mr. Foraker, but the correspondent who sent out the story was probably crazy or drunk.

THE legislature has started off at a gait which prompts the belief that the members are anxious to get done and go home. May they not forget before the session ends that too much law is as dangerous as too little law.

THE claim is made in the Transvaal that a lack of the knowledge of politics is responsible for the troubles. They should send to this county for material, for the knowledge of good politics has almost become a necessity in Columbiana.

MAKING HEADWAY.
It is a noticeable fact that the McKinley boom, if boom it can be called, is making headway in the four corners of the country and right down through the middle of the land. Mr. Mark Hanna, the Cleveland gentleman who has the business end of the governor's fight in hand, is working day and night, traveling far and near, and doing yeoman service for the gentleman, and there are others, as the small boy hath it. Mr. Morton will not have New York to himself if the people instead of Mr. Platt have anything to say about it. There are McKinley men right in the heart of the metropolis, and they are not the kind of men to desert their friend in the hour of his greatest need. Mr. Reed, of course, expects to make a strong showing in New England and the south, but the friends of our governor are not discouraged by the boastful utterances of the great parliamentarian's managers. They have not expressed a wish to go right into his ballistics and fight for prestige, but they are meeting him everywhere outside of that, and the McKinley men have reason to believe that they have the best end of the game to the present time. Here's hoping and believing it will continue so to the end.

IRON ORE MEN COMBINE

Three Owners on the Menominee Pool Interests.

BEST PRODUCERS IN THE WORLD.

Representatives of Lake Superior Bessemer Ore Interests Meet in Cleveland to Limit the Annual Output—Hope to Swing Mesaba Men in Line.

CLEVELAND, Jan. 10.—A combination has been effected by the owners of the Chapin, Hamilton and Ludington iron mines of the Menominee range, in the Lake Superior region. The mines adjoin, and when connected and worked to their full capacity will probably constitute one of the best producing mines in the world.

Representatives of all the companies owning Bessemer iron ore mines in the Lake Superior region are in conference here for the purpose of reaching an agreement, if possible, limiting the annual output of each mine. Last year a similar agreement was made by the companies operating all the mines except those in the Mesaba range. The Mesaba men are at the present meeting and the others hope to bring them into line.

TWO OF THE CREW KILLED.

No Passengers on the Motor That Went Through a Bridge Near Cleveland.

CLEVELAND, Jan. 10.—Later reports show that there were no passengers on the Akron, Bedford and Cleveland motor that went through the bridge near Bedford, and that only the crew, consisting of three men, went down in the wreck.

The bridge that collapsed was a frail structure and was built by the Akron, Bedford and Cleveland company. It was built on an incline, one end being considerably higher than the other. The span that crossed the creek was about 175 feet long, and the train was just about in the center of this span when the structure opened up as though it were made of cardboard and allowed the train to plunge to the ravine below.

NO DANGER OF WAR.

London Chronicle Commissioner Feels Sure of Arbitration.

SCHOMBURGK LINE ABANDONED.

He Says English Attitude Is Changed. Now That the American Position Is Understood—Senators, in Interviews, Favor Arbitration.

LONDON, Jan. 10.—Mr. Henry Norman, the special commissioner of the London Daily Chronicle in Washington, cables his paper as follows: "The sentiment for arbitration is a ball, which, once set rolling among a civilized people, cannot be stopped. I take it for granted that in some manner arbitration in the Venezuelan dispute is now certain."

Mr. Norman devotes the major portion of the remainder of his dispatch to authorized interviews with the members of the senate foreign relations committee, in which all favor arbitration, as does Chairman Hitt of the house committee. Mr. Norman then continues:

"The above represents the weightiest and most important body of opinion that could possibly be secured in the United States. And these are the men to whose consideration any question between England and America would be first submitted, and by whose decision the senate and the house would probably be guided. It is impossible to believe that British sentiment will not be moved to respond to such remarkable unanimity and such enlightened utterances. If not, then the world will see that America is ahead of England in the most striking characteristic of a civilized people."

"It is cable that the British Guiana police have occupied the extreme limits of the territory claimed in Venezuela. The American government has brought heavy pressure to bear to prevent the Venezuelan government from committing any overt act, and thus precipitating a hostile situation. Therefore, it is imperatively necessary that the British government instantly deny and repudiate such a monstrous and fatal act as the armed occupation of territory while the question of arbitration is pending."

"My work here is done. I propose to leave Washington immediately. The Schomburgk line is now abandoned. The English public, understanding the American attitude, has changed its own attitude, and nothing blocks the way to a prompt settlement, not only of the Venezuelan, but of all other matters, and they are numerous, now pending and creating international discord, and thereby placing our relations upon an amicable footing for the future. My last words shall be, and they must surely express British no less than American sentiment, that the nation desiring arbitration is in a civilized attitude and that the nation refusing it is in an uncivilized attitude."

A Denial From England.

LONDON, Jan. 10.—The colonial office publishes a denial of the report which reached here from Caracas, Venezuela, via New York, that British troops, with cannon, from Demerara had arrived at Cayuni, a station at the extreme limit of the British claims in the disputed territory and the scene of the Uruguian incident.

Gets Out of the Region Where the Spaniards Expected to Crush Him.

HAVANA, Jan. 10.—News has been received that Maximo Gomez, with 2,000 of the insurgent forces, has again passed the plantation of San Antonio, and the towns of Alquizar and Guira Melena. His present whereabouts and his proposed destination are not at present known, but his movement is practically a countermarch over the same route by which he entered the province of Pinar del Rio. Guira Melena is on a line almost directly south of Havana.

SMALL OHIO HAPPENINGS.

Joseph H. Outhwaite of Ohio has been confirmed as a member of the board of ordnance and fortifications. Paul P. Stewart of Coitsville, O., is announced by the navy department as an alternate appointee to West Point. A "Prosperity Banquet" was given by the citizens of Kyrin in honor of the Johnson electric road running to that city. The penitentiary managers paroled W. A. Billings, sentenced in Cuyahoga county to two years' imprisonment for embezzlement. The officers of the Ohio society of Sons of the American Revolution met at Columbus to consider a plan of union with the society of the Sons of the Revolution. The annual convention of the state and all local boards of health at Columbus on Jan. 30 and 31, will be asked to urge legislation which will stop the practice of feeding old horses to hogs. Harry Williams, the burglar, who was arrested at Tippecanoe, has been taken to Lima, and confessed to the robbery of the Hoover residence and the attempted burglary of the Block residence.

MR. HUTCHESON'S IDEA

He Would Continue Certain Officials In Office.

NOTHING LIKE IT EVER BEFORE

The Plan Is To Keep the Employees of the Adjutant's Office Until April—Some Do Not Take Kindly To It Because They Have No Personal Interest.

Representative Hutcheson, of Salem, has made himself heard in the legislature, but it is doubtful if his latest scheme will be a success. A special from Columbus speaks of it in this way: An entirely novel scheme is on foot today and is being strongly worked in both houses. It is proposed to pass a bill early next week continuing in office all the subordinates of the adjutant general's office until April 1. There never was anything like this proposed or even thought of before, and it is very doubtful whether it can be put through, although it is being strongly pressed by influential members and will be supported by all members having constituents on the salary list of the adjutant general's department who are not to be retained. The bill is to be introduced in the house by Mr. Hutcheson, of Columbus county, which county has a day policeman at the state house, and will be taken care of in the senate by Mr. Clark, of Cleveland, which has a night policeman at the state house. The argument is used that it would be unkind to turn out these men in the dead of winter, and that as they are Republicans anyhow, and will be replaced by Republicans, no harm can be done the party by an act of generosity.

THE RULES.

That Will Govern the Primary Election March 28.

Following are the rules that will govern the primary election on March 28. Each candidate for nomination for a county office shall, on or before the 23 day of February, 1896, hand in his name and pay \$10 to the county executive committee, who shall thereupon cause to be printed, by the lowest bidder, such number of official tickets as they shall deem necessary for the purposes of the primary election. Such tickets shall have printed on them the names of all the candidates; and in case of any candidate for a second term, such fact shall be indicated in connection with the name of such candidate. None other than the official ticket shall be voted at the primary election. Each township and city committee shall designate the place of holding the primary election in its township or city, and when necessary divide the township or ward into precincts, and in that case designate the persons to hold the election and act as judges in each precinct, and in each case of such division the precinct, name of judge, and place of holding election in each township shall be published in some Republican newspaper. All voting shall be done by ballot. The judges shall keep a record of all the names of voters and return the same with the tally sheets and tickets to the ratifying convention, and the votes shall be counted and the results announced as in other elections. The poll books and tally sheet, containing the names of all persons voting at such primary elections, duly certified by the judges and clerks of each precinct, shall be returned to the county central committee within three days from the holding of such primary election, and no tabulated return or abstract of votes cast in any precinct shall be received or submitted by said county central committee or ratifying convention unless accompanied by such poll book and tally sheet. There shall be no voting by proxy. None but known Republicans shall be permitted to vote at this election. Each voter shall be permitted to vote in his own township, ward or precinct and no other place. The primaries shall be held between the hours of 1 and 7 p. m., standard time. The county executive committees shall furnish to the chairmen of the several committees poll books, tally sheet and tabulating blanks for use at such elections, and by them to be delivered to the judges of elections in each precinct. All the committeemen elected shall be members of the county central committee. The committeeman in any precinct receiving the highest number of votes shall be declared the committeeman of the precinct. The ratifying convention will meet in Lisbon, Tuesday, March 31, 1896.

The Gilbert Opera company comes to the Grand tomorrow evening, and will play the Mascot. The company has long been in existence, and never fails to draw a big house in this city, where it is well known. Mr. Burt St. John as Rocco is this year better than ever, and Miss Alice Mayhew makes a charming princess. The minor parts are well sustained and the company presents a truly excellent performance. TWO ANSWERS FILED

Solicitor Clark Defends the City Against Damage.

THE TOWN IS NOT RESPONSIBLE

One is the Case of Eleanor Curren Who Fell Over a Bluff and the Other is Martin Leatherow Who Was Hurt in East End—The City May Win.

Solicitor Clark has filed two answers to as many damage suits recently entered against the city by persons who had been injured.

The first is the case of Mrs. Eleanor Curren, who had a hard fall in the vicinity of Avondale street. She was severely hurt, and sued the city on the ground that the place was dangerous, and the negligence of the city in not making it safe was the cause of the injury. The solicitor holds that the plaintiff has no legal claim for damages because in this case it is not responsible for Mrs. Curren's hurts. The other case is that of Martin Leatherow who fell off a bridge in East End. To this claim Mr. Clark makes answer that the city can not be held, since the place is not at all dangerous, but, on the other hand, as well protected as is usually necessary to prevent accident. He does not deny the man was hurt, but points out to the court that the municipality is in no way liable. The authorities hope some of the damage suits against the city will be thrown out of court, for they are becoming far too numerous when there is little or no provocation.

EXPANDING MONROE'S DOCTRINE.

A Resolution Introduced In the Senate. Stewart Makes a Speech.

WASHINGTON, Jan. 10.—The debate on the senate free coinage substitute for the house bond bill was again postponed, owing to the intervention of Mr. Stewart, the Nevada Populist, who insisted upon making a speech in favor of the Elkins resolution, as amended by the Butler amendment, to prohibit the further sale of bonds except by the express consent of congress.

The free coinage substitute was called up at the conclusion of Mr. Stewart's speech and now has the right of way, so that the debate upon it can be postponed no longer.

Mr. Stewart's speech predicted the failure of the popular loan proposition of the administration, intimated that the loan had already been underwritten by the gold syndicate, reiterated the senator's well-known free silver views and concluded with an appeal for the financial as well as the political independence of the United States.

Mr. Baker introduced a resolution somewhat expanding the Monroe doctrine and made a speech in favor of its adoption as a formal and unequivocal declaration of our policy with reference to the Western hemisphere.

THE GETTYSBURG BATTLEFIELD.

Suit Regarding Land Condemnation In the U. S. Supreme Court.

WASHINGTON, Jan. 10.—The supreme court is listening to argument in the Gettysburg reservation case, involving the important question of the prerogative of congress to determine what is a public use of land to be condemned. Congress appropriated \$75,000 for the purpose of condemning the land included in the Gettysburg battlefield as a public park, and among other tracts sought to condemn the right of way of the Gettysburg Electric railroad.

The railroad company resisted this proceeding, contending that the land to which it was sought to put the land was not a public use, and that the right of eminent domain did not apply. The attorney general and solicitor general appear for the government and Thomas Hart, Jr., for the railroad company.

SMALL OHIO HAPPENINGS.

Joseph H. Outhwaite of Ohio has been confirmed as a member of the board of ordinance and fortification. Paul P. Stewart of Coleraine, O., is announced by the navy department as an alternate appointee to West Point. A "Prosperity Banquet" was given by the citizens of Kyrin in honor of the Johnson electric road running to that city. The penitentiary managers paroled W. A. Billings, sentenced in Cuyahoga county to two years' imprisonment for embezzlement. The officers of the Ohio society of Sons of the American Revolution met at Columbus to consider a plan of union with the society of the Sons of the Revolution. The annual convention of the state and all local boards of health at Columbus on Jan. 30 and 31, will be asked to urge legislation which will stop the practice of feeding old horses to hogs. Harry Williams, the burglar, who was arrested at Tippecanoe, has been taken to Lima, and confessed to the robbery of the Hoover residence and the attempted burglary of the Block residence.

MR. HUTCHESON'S IDEA

He Would Continue Certain Officials In Office.

NOTHING LIKE IT EVER BEFORE

The Plan Is To Keep the Employees of the Adjutant's Office Until April—Some Do Not Take Kindly To It Because They Have No Personal Interest.

Representative Hutcheson, of Salem, has made himself heard in the legislature, but it is doubtful if his latest scheme will be a success. A special from Columbus speaks of it in this way:

An entirely novel scheme is on foot today and is being strongly worked in both houses. It is proposed to pass a bill early next week continuing in office all the subordinates of the adjutant general's office until April 1. There never was anything like this proposed or even thought of before, and it is very doubtful whether it can be put through, although it is being strongly pressed by influential members and will be supported by all members having constituents on the salary list of the adjutant general's department who are not to be retained. The bill is to be introduced in the house by Mr. Hutcheson, of Columbiana county, which county has a day policeman at the state house, and will be taken care of in the senate by Mr. Clark, of Cleveland, which has a night policeman at the state house. The argument is used that it would be unkind to turn out these men in the dead of winter, and that as they are Republicans anyhow, and will be replaced by Republicans, no harm can be done the party by an act of generosity.

THE RULES.

That Will Govern the Primary Election March 28.

Following are the rules that will govern the primary election on March 28.

Each candidate for nomination for a county office shall, on or before the 23 day of February, 1896, hand in his name and pay \$10 to the county executive committee, who shall thereupon cause to be printed, by the lowest bidder, such number of official tickets as they shall deem necessary for the purposes of the primary election. Such tickets shall have printed on them the names of all the candidates; and in case of any candidate for a second term, such fact shall be indicated in connection with the name of such candidate. None other than the official ticket shall be voted at the primary election.

Each township and city committee shall designate the place of holding the primary election in its township or city, and when necessary divide the township or ward into precincts, and in that case designate the persons to hold the election and act as judges in each precinct, and in each case of such division the precinct, name of judge, and place of holding election in each township shall be published in some Republican newspaper.

All voting shall be done by ballot. The judges shall keep a record of all the names of voters and return the same with the tally sheets and tickets to the ratifying convention, and the votes shall be counted and the results announced as in other elections. The poll books and tally sheet, containing the names of all persons voting at such primary elections, duly certified by the judges and clerks of each precinct, shall be returned to the county central committee within three days from the holding of such primary election, and no tabulated return or abstract of votes cast in any precinct shall be received or submitted by said county central committee or ratifying convention unless accompanied by such poll book and tally sheet.

There shall be no voting by proxy. None but known Republicans shall be permitted to vote at this election. Each voter shall be permitted to vote in his own township, ward or precinct and no other place. The primaries shall be held between the hours of 1 and 7 p. m., standard time.

The county executive committees shall furnish to the chairman of the several committees poll books, tally sheet and tabulating blanks for use at such elections, and by them to be delivered to the judges of elections in each precinct. All the committeemen elected shall be members of the county central committee. The committeeman in any precinct receiving the highest number of votes shall be declared the committeeman of the precinct. The ratifying convention will meet in Lisbon, Tuesday, March 31, 1896.

The Mascot.

The Gilbert Opera company comes to the Grand tomorrow evening, and will play the Mascot. The company has long been in existence, and never fails to draw a big house in this city, where it is well known. Mr. Burt St. John as Rocco is this year better than ever, and Miss Alice Mayhew makes a charming princess. The minor parts are well sustained and the company presents a truly excellent performance. The clever comedians keep the audience in an uproar throughout the entire evening, and the whole contrives to make a splendid entertainment.

"Down on the Suwanee River" company arrived this morning, and will play at the Grand tonight. On Monday evening "Alabama" will play at the Grand. It is a magnificent play, put on by a first class company. There is good reason for the popularity of Chamberlain's Cough Remedy. Davis & Buzard, of West Monterey, Clarion company, Pa., says: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough Remedy and they now recommend it with the rest of us." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

TWO ANSWERS FILED

Solicitor Clark Defends the City Against Damage.

THE TOWN IS NOT RESPONSIBLE

One is the Case of Eleanor Curren Who Fell Over a Bluff and the Other is Martin Leatherow Who Was Hurt in East End—The City May Win.

Solicitor Clark has filed two answers to as many damage suits recently entered against the city by persons who had been injured.

The first is the case of Mrs. Eleanor Curren, who had a hard fall in the vicinity of Avondale street. She was severely hurt, and sued the city on the ground that the place was dangerous, and the negligence of the city in not making it safe was the cause of the injury. The solicitor holds that the plaintiff has no legal claim for damages because in this case it is not responsible for Mrs. Curren's hurts. The other case is that of Martin Leatherow who fell off a bridge in East End. To this claim Mr. Clark makes answer that the city can not be held, since the place is not at all dangerous, but, on the other hand, as well protected as is usually necessary to prevent accident. He does not deny the man was hurt, but points out to the court that the municipality is in no way liable. The authorities hope some of the damage suits against the city will be thrown out of court, for they are becoming far too numerous when there is little or no provocation.
